

What do I need to do for the Curriculum Committee for my 5-year review?

- Check all sections of the Course Outline of Record (COR) in eLumen for consistency, relevance, accuracy and currency. Refer to the Curriculum Committee Checklist for COR.

- For courses with advisories, prerequisites and/or requisites
 - If you are **not** changing them, please move the information from our older form to our new Content Review form and we will file internally.

 - If you are changing them, please use the new Content Review form and it will be submitted to the curriculum committee for review and approval.

- For courses with Distance Education
 - If the course has already been approved for Distance Education, please move the information from the old form to our new DE Addendum form and we will review and place it on Curriculum Committee agenda.

 - If you are adding DE education to an existing course or a new course, please use the new DE addendum form and it will be submitted to the curriculum committee for review and approval.

Please visit the Curriculum webpage on the Mendocino College website, for the Curriculum Committee calendar, COR checklist, Content Review form and DE Addendum form. <https://www.mendocino.edu/academics/curriculum>
