MENDOCINO COLLEGE ALCOHOL AND OTHER DRUG STUDIES PROGRAM Pre-internship Instructions: Getting Started

The following information is for students in the AODS Program who are required to complete an internship as part of the AODS certificate and/or AS degree program.

Mendocino College's AODS Internship provides students with an opportunity to apply knowledge and skills learned in academic classes to real-world treatment settings at approved internship sites.

The AODS internship involves 2 courses: a seminar class (AOD 164) and a practicum class (AOD 197a). You must enroll in both of these courses. Check <u>WebAdvisor</u> for course section numbers.

AOD 164 is a 1.5 unit seminar course held on campus; **AOD 197a** is an "occupational work experience" course (practicum) where student learning occurs on-the-job at a Substance Use Disorder (SUD) treatment agency. AOD 164 meets in a classroom on campus, and is intended to provide students with support and guidance as they complete their practicum experience. AOD 197a is a variable-unit course (you need to enroll in a minimum of 2 units). Each unit of AOD 197a requires 60 hours of documented work time over the course of the semester, or 120 hours over the course of the semester for 2 units (about 8 hours per week, if you are unpaid). Paid employees must complete 75 hours per unit (about 10 hours per week).

Students must secure an internship **BEFORE** the beginning of the semester!

Students must contact an <u>approved practicum site</u> and arrange to be interviewed by the field site supervisor **before the end of this semester**. Plan to bring a résumé and cover letter describing your interest in interning with that particular employer. You should also provide the employer with a copy of the <u>Internship Employer Evaluation of Intern</u> document, outlining the specific learning objectives associated with the internship. Not all students will be accepted at all sites, so you should plan on interviewing at more than one site. It is important that you establish the site for the practicum as soon as possible and before the internship class begins.

Once you have been accepted at an internship site, you must complete the documents listed below. These must be completed online and printed for signatures, in preparation for turning in to your internship instructor on the first day of the AOD 164 class. **Do not handwrite these**. The document titles, below, are hyperlinked to the fillable documents on the web. They can also be found by going to <u>https://www.mendocino.edu/department/AODS</u>; click on "Internship Information".

ALL FORMS MUST BE WORD-PROCESSED <u>AND SIGNED BY BOTH THE STUDENT AND</u> <u>THE PRACTICUM SUPERVISOR</u> AND SUBMITTED TO THE AOD 164 INSTRUCTOR BY THE SECOND WEEK OF THE SEMESTER.

- 1. Contact Information Form
- 2. <u>Learning Objective Agreement</u>
- 3. Job Description

Questions? Contact Dan Jenkins at <u>djenkins@mendocino.edu</u>; visit the website: <u>www.mendocino.edu/AOD</u>.

ALCOHOL AND OTHER DRUG STUDIES INTERNSHIP OVERVIEW

Mendocino College's Alcohol and Other Drug Studies (AODS) Internship provides students with an opportunity to apply knowledge and skills learned in academic classes to real-world human service settings at approved internship sites.

Students who successfully complete the AODS internship will be able to:

- 1. Effectively use clinical supervision and other appropriate feedback and support systems to develop and improve knowledge, skills and attitudes needed to be effective as a counselor and employee.
- 2. Use motivational enhancement techniques and strategies to perform core substance abuse counselor functions accurately, effectively and efficiently and in a manner consistent with ethical, professional standards of conduct.
- 3. Complete documentation and record keeping tasks accurately, effectively and efficiently, and in keeping with the legal implications of written documentation.

Students must contact a desired practicum site and arrange to be interviewed by the field site supervisor by the end of the semester prior to the internship.

The AODS internship combines classroom education with supervised training at field placement (practicum) sites, **involving** <u>2 courses</u>: a seminar class (AOD 164) and a practicum class (AOD 197a). AOD 164 is a regular face-to-face on-campus class that meets weekly, for the purpose of supporting students, providing supplemental instruction, and sharing workplace information. AOD 197a is an "occupational work experience" course in which the learning occurs at the workplace.

Interns will receive guidance from the AOD 164 *seminar class instructor* and the AOD 197a *practicum instructor/coordinator* (these may be the same person) as well as supervision from the *work site supervisor*, which means that there will be obligations students need to meet for both the college and the practicum agency, as follows:

Student's commitment to the AOD 164 Seminar instructor:

- * Attend all classes prepared to discuss practicum experiences;
- * Engage in a full, active and pertinent dialogue with the instructor and other students;
- * Provide appropriate feedback to other students;
- * Participate in skills building/demonstration activities as directed by the instructor;
- * Complete all homework assignments (student will need to log on to an online Canvas classroom for this purpose);
- * Post to the weekly discussion board comments related to the practicum experience;

Student's commitment to AOD 197a Practicum Instructor/coordinator:

- * Consult the instructor *immediately* whenever questions or problems arise;
- * Complete and submit the following documents (found on the AOD 197a Canvas site) by the second week of the semester (all documents must be signed by both the student and the site supervisor):
 - Contact Information Form;
 - Internship Job Description
 - Learning Objective Agreement
- * Submit monthly time sheets;
- * Complete a Self-Evaluation at the end of the semester

Student's commitment to field placement practicum (work site) supervisor:

- * Establish and maintain schedule of hours (a minimum of 8 hours weekly);
- * Become familiar with and follow agency policies and procedures;
- * Attend regular supervision meetings;
- * Communicate concerns and seek clarification whenever necessary;
- * Read all materials as directed by the supervisor;
- * Perform duties within one's scope of practice in a manner consistent with the agency's standards and in keeping with the highest level of professional ethics

AOD 164 Assignments: The Internship seminar class (AOD 164) is supported by an online course management system, called Canvas. You will be using this site to access resources, communicate with your instructor and fellow students between classes, post discussions, and upload homework assignments. The discussion posting is a guided discussion of your experience with practicum activities; full instructions on what you need to post will be provided in the Canvas site.

Field Supervisor's Evaluation of Intern form: This will be completed by the practicum (work site) supervisor. Study this document carefully, as it outlines the specific objectives students are expected to achieve as an intern. The AOD 197a instructor will review this evaluation form with the work site supervisor, and will collect the completed form when it is due. However, it is helpful if the intern reminds the work site supervisor to complete the evaluation before the end of the semester. A significant percentage of the AOD 197a grade is based on this evaluation.

FREQUENTLY ASKED QUESTIONS

Q. What if I want to do my internship at a site that is not on the "approved sites" list?

- A. Submit the name, address and phone number of the site you are interested in to Dan Jenkins (djenkins@mendocino.edu), and the name and phone number of the person who would be the practicum (work site) supervisor. If the site meets the minimal requirements for an internship site; the site supervisor has a state-approved AOD counselor certification and is willing to provide you with supervision; and the agency is willing to sign a Memorandum of Agreement with Mendocino College, then the site should be approved.
- Q. What if the site supervisor doesn't have or can't make time to supervise me on a regular basis?
- A. Supervision is a vital aspect of the practicum experience. It is through the feedback you receive from your supervisor and other experienced human service providers that you will learn most about yourself and your role as a human service worker. Ask your supervisor to schedule regular supervision meeting with you. If you don't get a response, write a memo to the supervisor requesting meetings, and keep a copy. If that doesn't get a response, contact your AOD 197a instructor and send him or her a copy of the memo. The instructor will then contact the supervisor and discuss the need for regular supervision meetings. If the site supervisor is unable to meet with you on a regular basis, then you may have to find an alternative practicum site.
- Q. What do I do if I believe I'm being used as an "office assistance" and not getting enough opportunities to develop human service worker skills?

A. Communication is essential to a successful practicum. If you think you are not getting opportunities to practice human service skills, discuss this with your practicum supervisor. Show your supervisor the "Student Evaluation Form" that identifies the skills you should be observing and practicing. If your supervisor raises concerns or identifies barriers to you working with clients (the supervisor feels you're not ready; staff are too busy right now to provide supervision or mentoring, etc.) inform you AOD 197a instructor immediately so these barriers can be resolved.

Remember, the Internship instructor(s) are there to help you successfully complete the Internship. The Internship experience can be confusing and stressful, especially in the beginning, but will be rewarding and satisfying in the end. If you have any question, concerns or suggestion, be sure to consult with the instructor(s) as soon as possible.
