

BOARD POLICY

No. 4035

MENDOCINO - LAKE COMMUNITY COLLEGE DISTRICT

CLASSROOM GUEST SPEAKERS

The Board recognizes that there are many people in the community who can provide resources to a specific class which may not be otherwise available. The Board understands that certain courses and programs frequently have within their content highly technical, specialized and/or rapidly evolving material. In many instances this material can best be presented by a special lecturer brought to the campus from the community, industry or another educational institution.

The faculty member will inform the appropriate Dean in advance of all such visits. Faculty members will remain in the class while the Guest Speaker is present.

The Board encourages staff members to seek such community resources and invite them to participate as a classroom guest speaker.
