

Basic Inventory of amenities at the Mendocino College Coastal Field Station

Overview: There is a small classroom/laboratory and several houses at the field station. The houses offer a kitchen, single beds, running water (including hot water), heaters and electricity. The well water has not been tested to be of poor quality, but it does have relatively high total dissolved solids. You might want to bring bottled water for food preparation and drinking. There is no trash pickup service. You should plan to remove all trash and recyclables accumulated during your visit.

There is cell phone service for most carriers (AT&T, Verizon, US Cellular), but Sprint customers may not have coverage. There is FurtherReach.Net wireless internet in the classroom and House 1.

Each house has several bedrooms and 2 bathrooms with showers. There is no linen service so you should bring a towel, soap and personal items that you will need for your overnight stay. You will most likely be sleeping on single (twin) beds. We recommend that, for your protection, you bring a sheet to place on the bed under your sleeping bag. Instead of a sleeping bag, some people just bring regular bedding and "make" their bed with regular sheets, blankets, etc. You may also want to bring a flashlight.

Occupancy information

House 1 – Student "dorm" house with kitchen

Master bedroom with 4 twin beds

Bedroom#2 with 3 twin beds

Bedroom#3 with 2 twin beds

Maximum sleeping capacity – 9 people

House 2 – Student "dorm" house with recreation room (game tables and TV/DVD)

Master bedroom with 4 twin beds

Bedroom#2 with 2 twin beds

Bedroom#3 with 4 twin bed
